Name of community agency/organization:

Clinical Research Webinars

Description of community agency/organization:

Clinical Research Webinars is an online educational platform where webinars on any topic of Health sciences, life sciences or clinical research are delivered that helps the students and the employees globally by giving them knowledge and credit hours at the convenience of their own home or work. Kindly visit www.clinicalresearchwebinars.com

Position title:

Webinar Speaker/ Presenter

What will the student do:

The Clinical Research Webinars is open to students who are looking to accumulate volunteer hours for their high school graduation or just would like to help other students that are in other parts of the world in understanding a science topic who do not have an access to home work help.

Students will pick any topic of Science and will make power point slide presentation. They will need an access to a high-speed internet, a microphone or a head set with a microphone that can attach with the computer.

The student will prepare a presentation and will deliver an online webinar. This webinar will be attended by the registrants and will also be recorded.

This is a great way to accumulate volunteer hours at the convenience of student's own home. They do not have to leave their home and will save them from travelling and other costs associated. They can volunteer from home that will also give a peace of mind to the parents as it is a safe educational platform. Parents are welcome to help their kids make online presentations.

Skills required:

Ability to make power point presentation slides

Good speaking and presenting skills

High speed internet and computer access.

Skills student will learn:

Giving presentations and explaining a topic globally will help the students to get the confidence of teaching online and build relationships with students all over the world. This will not only make them understand the topic in detail but will also help thousands of students in countries who do not have an access of home work help. The students in developing countries will be able to understand a science topic at the convenience of their home.

This will make a strong impression on their resume.

The students will get an access to the recorded link and will also get a certificate of presentation with credit hours. If a presentation is 30 mins long, the student will get 0.5 credit hours. If a webinar is 45-60 min long the student gets 1 credit hour.

Length of time required:

Time of webinar 30 mins- 60 mins

What is the registration deadline for volunteer positions? *(If the volunteer position is a year-round opportunity, organizations will need to resubmit every September)*

The registration is open year-round and can apply any time by email at info@clinicalresearchwebinars.com

The students will receive a form by email with all details and can pick a time or date for presentation.

Location:

www.clinicalresearchwebinars.com

How students can get involved/How to apply:

The students need to visit www.clinicalresearchwebinars.com and register as a speaker. The students only need to write an email to info@clinicalresearchwebinars.com indicating that they are interested. They will receive a reply with a form with all the instructions and details. They can also pick a convenient time for their presentation.
